

# Why Window Film is a Great Home Improvement Project

 [glamourglaze.com/window-film-great-home-improvement-project/](http://glamourglaze.com/window-film-great-home-improvement-project/)

As a new homeowner, you probably don't have a lot of financial wiggle room for home improvements. You've probably already thought about painting or replacing hardware and fixtures but have you considered new windows? Probably not, the cost of window replacement can be astronomical. Easy, affordable **home improvement with window film is the smart alternative.**

## Add Value and Save Money

Innovative eco-friendly home improvements will **increase your home's value and save you money in the long run.** All window film increases insulation, but different films provide different solutions. If your aim is to reduce solar heat, hot spots and glare then [sun control](#) or [heat control film](#) is just the thing for you. Sun and heat control film provides the following features:

- Retain positive qualities of sunlight.
- Reduce glare and reject harmful UV and infrared light.
- Lower energy cost and waste.
- Enhance and redirect natural light.

## Privacy and Style

[Privacy control](#) and [decorative window film](#) will provide hassle free privacy and still offer protection from UV rays and solar heat. There is a vast selection of different colors and styles to choose from like frosted, etched and textured glass. You can **achieve any look you want or even customize your windows** with etching. A film can be installed on any glass surface like sliding glass doors, shower doors or glass cabinets.

# BENEFITS OF WINDOW FILM

## Energy Savings

The average home spends 43% of utility bill on heating and cooling costs. Window film rejects up to 70% of heat which can reduce energy bills by up to 30%.

## Glare Reduction

Window film reduces glare on TVs, computer screens, pictures, and creates a clear view outside.

## Fade Prevention

Window film blocks up to 99% of UV light, which prolongs the life of your furnishings.

your furnishings.

## Temperature Control

If you have a room that's too hot or too cold, window film helps regulate temperature.

## Increased Privacy

Reflective technology prevents prying eyes from seeing inside your home.

## Decorate Your Home or Business

Decorative window film allows you to:

- Market your business
- Express your style
- Improve privacy in bathrooms, office spaces and more.

## Environmentally Friendly

Reduce your energy footprint by having window films installed.
